Course Description

The Certificate IV in Training and Assessment course trains you to train and assess others in industry. People, who have the skills to design, implement, manage and evaluate assessment and training systems within various workplaces are highly sought after in a wide variety of industries and organisations.

The course outlines the skills you need to plan and deliver training sessions to groups and individuals, while also providing you with the knowledge necessary to assess their effectiveness.

Recognition of current competency is a feature of the program. The on-the-job skills and knowledge you demonstrate will be recognised.

The Bridging Course is the required 8 units that are required to upskill from BSZ98.

Qualifications and Recognition

Participants who complete the Bridging Course will be awarded the TAA40104 Certificate for the nationally accredited Units of Competency from the Certificate IV in Training and Assessment.

Vocational Outcomes

This course leads to work in:

- training and assessment consultancy
- training management
- training or human resources departments
